Simply place the pallet load on the machine and pull a lanyard switch while backing away. The Flex automatic machines perform the entire wrap cycle without the operator dealing with the film tail at the beginning or end of the cycle — significantly impacting your efficiency by freeing operators to work on other tasks while the machine is wrapping.

LPA & HPA features include heavy-duty steel framework and turntable support system, AC motors, and a belt-driven carriage lift. And, the LPA and HPA are now equipped with the industry leading S-Carriage InstaThread™ film delivery system. The S-Carriage provides a standard 260% film-saving pre-stretch, and is the most versatile carriage for a wide range of film types and gauges. Plus, the S-Carriage is designed for quick, safe, and easy film loading and changeover.

**Perform the entire film wrap cycle automatically**

**LPA SPECIFIC FEATURES:**
- 63" diameter turntable for loads up to 50" x 50"
- Max load height 80"- standard, 110"- optional
- Load with a pallet jack, electric walkie, or forklift
- Full surround deck for easier loading
- Precision ring bearing turntable support, with heavy-duty casters for additional support

**HPA SPECIFIC FEATURES:**
- 48" x 48" turntable for loads up to 50" x 50"
- Precision turntable with heavy-duty ring bearings
- Octagonal turntable for easy forklift loading
- Side facing carriage for easy film loading

**GENERAL FEATURES:**
- Automatic Wrap Cycle for Operator Efficiency
- 7" IntelleVue color, HD touch screen HMI
- 15 RPM variable speed with "soft start"
- 6,000 lb. maximum load weight capacity - Orion’s universal base uses a robust ring bearing design
- Film saving 260% powered film pre-stretch
- Automatic force to load for even film tension
- AC/VFD motors reduce maintenance
- Forklift portable from front or rear
- Structural steel frame for durability

**STANDARD FEATURES**

- **7” IntelleVue HMI**
  - User-friendly, password protected touch screen controls with up to 9 different wrap recipes

- **Film Carriage Pre-stretch**
  - The S-Carriage InstaThread Film Delivery System elongates film at a standard rate of 260%, providing the most secure loads at the lowest cost.

**OPTIONS**

- Integrated scale or platform scale
- Extended mast - 110”
- Load height photocell regular or specialized for dark/opaque loads
- 30” film carriage
- Wireless 3-button remote
- Air compressor unit
- Bolt-on film clap guard mounted on the base frame, painted safety yellow (LPA)
- Forklift wheel stops
